Our Spa Products:

The Spa range by D'VINE draws its inspiration from the restorative power of Africa's' natural resources as well as its traditional wisdom and healing practices. Each of our products is made with ethically sourced natural ingredients especially botanical extracts which are designed to heal, protect and rejuvenate our skin.

Each range and treatment have been carefully designed not only by the vast knowledge of our professional therapists who have years of experience under their skin but also inspired by the traditional African rituals enhanced with a modern touch.

Our products and treatments are designed and developed to indulge all the senses, relieve tensions & blockages while simultaneously working on rebalancing and inducing an overall sense of inner peace and well-being.

Our Key Ingredients:

High quality and safe ingredients are our priority. We love plant oils and extracts. We source responsibly. We never test on animals."

Yangu Oil/ Cape Chestnut Oil [Source: Kenya]

The secret of smooth skin amongst the Maasai is the use of the Yangu nut oil to moisturize and protect the skin from the intense African heat. Yangu oil not only provides natural UV sun protection but it is also rich in anti-oxidants and essential fatty acids. This provides excellent emollience to skin and body-care products.

Baobab Oil [Source: Kenya]

The Baobab tree is one of the characteristic trees of Africa and is popularly known as the "tree of life", as every part of the tree is useful. The oil of the baobab seed contains high levels of anti-oxidants, vitamins A, D and E and essential fatty acids. It has excellent moisturizing properties, helps to improve elasticity and regenerate cells, and is an excellent ingredient for eczema or psoriasis.

Coconut Oil [Source: Mombasa, Kenya]

Coconut oil is rich in vitamins and fatty acids. It has anti-inflammatory and natural antimicrobial properties that improve the skin's barrier function, a high content of lauric acid which boosts collagen production and it also has excellent skin moisturising and softening properties.

Ugandan Shea Butter [Source: Uganda]

Shea butter obtained from the nut of the Karite Shea tree has been used for centuries in Africa for its deeply moisturising, anti-inflammatory, regenerative and anti-ageing properties. Shea butter is rich in anti-oxidants, vitamins A & E and essential fatty acids.

Aloe Vera [Source: South Africa]

Aloe Vera has been used traditionally across Africa for healing wounds, relieving the sting of insect bites and as a soothing, cooling gel for excessive sun exposure and burns. It has anti-oxidant, anti-bacterial and anti-fungal properties, and helps to heal and rejuvenate as well as soothe and soften the skin.

Our Core Values

We care about our quality...

We manufacture our products using the best available natural oils, butters and botanicals indigenous to Africa alongside cutting-edge technology and safe synthetics. We practice good, hygienic and safe manufacturing processes and ensure highest standards are maintained at all times.

We are proud to be Kenyan!

Our products are 100% handmade in Kenya using natural ingredients sourced largely in Kenya, often bought directly from local communities.

We care about our environment!

We believe in protecting the environment and in reducing our carbon footprint; we are happy to take back and recycle used empty bottles.

We care about our people!

We believe in enriching the lives of the communities we interact and work with; we run a free training program for aspiring therapists from disadvantaged backgrounds with a mission to find them employment with our affiliate spas.

We stand firmly against animal testing

We have never and will never test any of our products on animals. All testing is done on live human skin to ensure that all products are safe for use.

We seek to educate and empower...

We seek to educate our customers about the benefits of ingredients indigenous to Africa and we aim to help our spa partners build and develop professional, sustainable & profitable businesses.

We simply love using everything we make...
